DETAILED ACTION

This office action is in response to the applicant's amendment dated 10/26/2006 and RCE dated 11/22/2006.

The applicant has amended claims 1, 23 and 44.

Claims 1-44 are pending.

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/26/2006 has been entered.

Response to Amendment

2. In view of the applicant's amendments to independent claims 1, 23 and 44 in the amendment dated 10/26/2006, the examiner withdraws the rejections of these claims under 35 USC 103 and 112 first paragraph. Consequently, the rejections of dependent claims 2-22 and 24-43 are also withdrawn.

Allowable Subject Matter

3. Claims 1-44 are allowed. The following is an examiner's statement of reasons for allowance: The references of Zhao #1, Zhao #2, Patel, Wright and Kaginele teach a system and method of testing a CAM by conducting a test comprising identifying stuck match lines, using walking 1's or 0's to identify defective pull-down lines, locating faulty CAM cells, and diagnosing a cause of fault by reading the state of the match line. But the references have further failed to suggest or disclose the unique features claimed by the applicant wherein stuck lines are detected using an all 1' or all 0's pattern search, and the faulty line or bit positions are disabled.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
